9. DMM-News:
DMM News are now translated in German and Japanese. Terry will develop a budget for IASA (DMM News) for January 2022. Further suggestions: Suggestion in every DMM News for IASA donation and a donation button on the webpage.

For upcoming issues of the DMM News: revive the 'Attachment in Action' series with FFF case studies: interesting cases with a novel intervention on the background of DMM. Additionally, Pat intends to ask this group of people for oral presentations, slides, and ultimately a DMM book with case studies will be published (with the title "DMM Integrative Treatment").

10. Ad Hoc Volunteers meeting in October:

Karen will coordinate the Ad Hoc Meeting in October. A major focus could be their activities on behalf of IASA. If they knew this now, some who need a push to act, might do so before Oct – with the meeting serving as motivation. Karen should contact them now about their activities.

Zurich, 7th July 2021, Agnes von Wyl
