1. Approve/revise the minutes of 90th meeting:
 - The minutes have to be approved at the November meeting.
2. Every Ad Hoc Volunteer and every Board Member gave a short introduction about their tasks in IASA
3. Alexander Jack and Stephanie Wilson give an overview of the new Website DMM-Community. They produced a film about all the possibilities on the DMM-Website. The link is: <https://dmm-community.mn.co> (the 'https://' needs to be included if you type it manually). Thank you very much, Alex and Stephanie!

Everybody should try the link and give feedback. The website is open for everybody, not just IASA members.
4. Discussion of next year's priorities: Where do we want to go as IASA in the future?
 - Could there be a webinar about the ANP-course (which is now offered on-line by Zoom).
 - Certificated program "DMM-lite formulation", duration 10 weeks; it starts now in China, in December at Tavistock, followed by other programs in Britain and Italy.
 - DMM Fellowship: the revised proposals have to be submitted December 1st, they will get a response in January.
 - Discussion about generating a fund for upcoming IASA Fellowships?
 - i. Selling videos
 - ii. Seeking more members
 - iii. Fundraising
 - iv. Next IASA conference: virtual or in presence?
